BSN Leadership Portfolio

The BSN Nursing Portfolio provides students an opportunity to reflect on their academic experiences and synthesize their learning and accomplishments. It provides a means for documenting your professional skills and knowledge as you build your nursing career. It can serve as a supplement during job interviews and back up your resume.

The BSN Portfolio will be started at the beginning of your journey towards your baccalaureate nursing degree and handed in at the completion of your degree requirements. It will be in a 3 ring binder that has a place to insert cover page on front. Divider tabs for each section.

Cover Page with name it in front
