

School for Career Development

Academic Calendar

Spring 2010

(Modules III & IV)

Please note this schedule is subject to change without notice

Oct. 26, 2009

Dear Students:

This is the Academic Calendar of Module Classes for the spring of 2010.

It includes:

Modules III and IV

Please note the following:

- It is always possible for a class not to make because of low enrollment. In this case, we try to let students know prior to the first class. If you plan on taking a course, it is helpful if you would **sign up for the class as soon as possible to avoid cancellation** of the course due to low enrollment. We try to make a decision on whether the course will make or not at least three days before the class is scheduled to begin.
- If you plan on graduating in May 2010 you should see your Academic Advisor ***immediately*** to make sure that you have addressed all of the requirements for graduation.

Edition Changes: While we make every effort to comply with this schedule as published, please know that there are conditions beyond our control which require the change in the schedule. When there are schedule changes we will publish a copy of the new edition on the College's Web Page <http://www.midway.edu/currentstudents/index.html>. So, when planning, check the website above to find the latest edition of the schedule.

Dr. William G. Brown
Vice President
Dean of School for Career Development (SCD)
