

Dear Visiting Teams & Athletic Training Staff:

Welcome on behalf of the Midway College Athletic Department! When your teams play at Midway, a certified athletic trainer or qualified first-aider will be available at all home games. However, our teams will be traveling without an athletic trainer (AT). You will be notified by a letter traveling with our team or in advance if there are any special concerns or needs any Midway College athlete may have while visiting your school.

Available to you and your teams while visiting Midway College are:

Athletics Treatment Clinic (inside the gymnasium):

- Hydrocollator (1)
- Electrical stimulation (1 channel only)
- Ultrasound (1)
- Treatment tables (2)
- Taping table (1)

During events

- 5 or 10 gal water & cups (*provided by Midway's athletic teams*)
- Injury ice bags on the visiting team bench
- Emergency supplies (vacuum splints, cervical collar, etc.) will be available on the home bench
- Assistance from the AT or first-aider
- EMS services via 911

Please feel free to make use of our athletic training facility for your taping and treatment needs, which will be open one hour prior to athletic events (with the exception of softball as the field is off-site). If your team will be traveling without a certified or a student AT, we will be happy to provide your athletes with whatever care they need while at Midway. Please provide taping, other kit supplies, and specific instructions for any given athlete's needs. Ultrasound and E-stim treatments will not be provided unless accompanied by written instructions or a phone call from one of your Certified Athletic Trainers or physicians. *We will not tape visiting athletes unless supplies have been provided.*

In the event of an injury requiring imaging or other advanced diagnostic or treatment needs, Bluegrass Community Hospital (15 min Southwest) is located nearby. Our team and orthopedic physicians are available on call. The Head AT or team physician may be able to assist in expediting emergency room care by placing a phone call prior to your arrival, if needed. Two other hospitals, Georgetown Community Hospital (20 min Northeast) and Frankfort Regional Hospital (20 min West) are also located close to Midway College. For emergency situations, an ambulance via 911 will be available for transportation. Non-emergency visiting team transportation will be the responsibility of that institution.
